

Reconsider kart track decision

Dear Editor:

In response to the letter from Torrie Venoit regarding the Cowichan Valley Regional District closing down the go-cart track at the Youbou mill — Bravo! and well-spoken! I haven't seen this much pure common sense in an editorial, much less than from the mind of a normal teenager.

Being one of the "older generation," I know we too often look upon the activities of a boisterous bunch of teenagers as "bothersome," forgetting the energy we had to burn off when we were that age. And then we have the temerity to say "I told you they were no good" when they do something stupid out of sheer boredom, because we closed down the only place they had to experience that thrill known as adrenaline in a confined, safe environment.

I think the Cowichan Valley Regional District should seriously reconsider this decision. After all, not everyone is interested in baseball, soccer, or lacrosse.

Hank Pedersen, Duncan
